APPLICATIONS

IC In-Ceiling

In-ceiling loudspeaker

IW In-Wall

In-wall loudspeaker

ICW In-Wall / In-Ceiling

In-wall and in-ceiling loudspeaker

IWLCR In-Wall Left Center Right

In-wall loudspeaker for left, center, right and surround channels

ICLCR In-Ceiling Left Center Right

In-ceiling loudspeaker for left, center, right and surround channels

ICA In-Ceiling Angled

In-ceiling angled loudspeaker for Dolby Atmos® effects

ST Stereo

In-wall and in-ceiling loudspeaker producing a stereo effect

OD Outdoor

IP-certified* outdoor loudspeaker

SAT Satellite

Discreet loudspeaker with multi-purpose fastenings

STONE Stone

Stone-effect outdoor loudspeaker

SUB Subwoofer

Integrated subwoofer

T 70 - 100 V transformer

To cover a very large listening area

UL UL certification

Fire and electric shock safety feature risks

UTOPIA CINEMA

Utopia-sized immersion

For uncompromising sound, from post-production to in-room listening, Focal engineers are constantly innovating. The UTOPIA CINEMA Integration range combines cutting-edge technologies with unmatched craftsmanship, delivering sensational, tailor-made sound immersion for private cinema rooms of up to 2153sq ft (200m²). With Cinema LCR and Cinema SUB, dialogue clarity and action scenes are rendered with exceptional precision, while maintaining a discreet installation.

1000 SERIES

Unrivalled listening experiences

With seven exceptional products, the 1000 Series line promises excellent stereo and Home Cinema sound reproduction. These in-wall and in-ceiling loudspeakers are discreet, complementary, and can be adjusted and positioned for flawless sound spatialisation without compromise in your listening area. Both Utopia products enhance the line with their power and their design, specifically thought out to be assembled together.

UTOPIA

The icon far ahead of the rest

The collection's iconic flagship product, the 1000 Series Utopia loudspeaker does a sensational job at picking up the smallest sound details in films. Thanks to its mid-high range plate in the d'Appolito configuration, and with different speaker driver settings, the installation can be fully customised. For the ultimate system, the 1000 Series Utopia subwoofer has been designed to combine perfectly with the loudspeaker and to offer exceptional bass.

300 SERIES

A source of inspiration

Bring a whole new vibe to your spaces with the 300 Series and its natural flax cone speaker drivers. In addition to the acoustic qualities and sound clarity they offer, the products are innovatively designed and quick to fit, thanks to the Easy Quick Install® (EQI) system. Whether for stereo or Home Cinema use, or as a complement to a traditional hi-fi system, all you have to do is make your choice and enjoy.

100 SERIES

Discreet musicality

A comprehensive solution for your home audio needs, indoors and outdoors, the 100 Series offers outstanding performance from a compact design. The range is ideal for small-to-medium-sized rooms, for seamless sound throughout the house, stereo listening or Home Cinema installations. The tropicalised Polyglass cone is even suited for bathroom use too.

ON WALL 300

Creating emotion

Designed for hi-fi and Home Cinema use, the allure of the On Wall 300 loudspeakers lies in their sleek design, 'angled' silhouette and incredible sound. Their speaker drivers boast a Flax cone to bring realism, vocal clarity and sonic detail into your home. Available in a White High Gloss or Black Satin finish, On Wall 300 blends seamlessly into interiors, around a television.

DÔME FLAX

The sound spotlight

Made in France, Dôme is a line of miniature loudspeakers boasting a Flax sandwich cone, exclusive to Focal. This technology provides genuine benefits in terms of sound definition and precision. In terms of appearance, the Dôme design blends fine materials and elegant finishes. The loudspeakers are positionable and easily integrated into the wall, ceiling or on a stand, as you prefer.

SIB EVO

At the heart of the action

The line comprises one traditional loudspeaker, the Sib Evo, a second Sib Evo Dolby Atmos® model equipped with a specific speaker driver on top, and an active subwoofer, the Cub Evo. These satellite loudspeakers combine front and vertical diffusion thanks to the Dolby Atmos® effects created. The sound waves are projected onto the ceiling and are then reflected back to the listener for an immersive experience.

SUBWOOFERS

Dynamics, impact and depth

The subwoofer is a major component of any audio installation, providing dynamics and intensity. With their sleek design, Focal subwoofers offer a deep, impactful and powerful bass. They effectively complement a wide range of configurations, from the most sophisticated Home Cinema installations to compact systems. All you have to do is choose the subwoofer for you!

DOLBY ATMOS®

Dolby Atmos® technology creates powerful sound effects by isolating each sound from an original soundtrack or mix as an independent audio object. It truly reveals its full power in scenes featuring vertical effects: a helicopter flying overhead, a storm breaking, or rain falling. You find yourself at the heart of the action and the music, immersed in a strikingly realistic 3D space. Focal loudspeakers with Dolby Atmos® technology feature, in addition to a forward-facing driver, an upward-firing driver on the top panel. This directs the sound towards the ceiling at a carefully calculated angle, allowing it to reflect throughout the room.

SPHERE MODULE

Focal & Naim engineers developed the Sphere module for the Naim Pulse Platform through a hybrid of advanced technologies. Thanks to this module, Mu-so Hekla (p.77) delivers a range of immersive audio modes compatible with all audiovisual content, whether stereo or Dolby Atmos®, and adapts to every listening environment (open or enclosed spaces). Our exclusive Sphere modes use the reflection of sound waves off walls and ceilings to create room-filling immersion. This room spatialisation enables precise control of sound delivery from the loudspeakers to the listening position. The result is spectacular immersion.

CI EXPERT

OFFICIAL PARTNER

So you can optimise the full potential of our 1000 Series, our dedicated retailer network is on hand to listen to your requirements. These specialist teams are trained in Focal products and can assist you with any questions you may have. Our installers also have priority access to The Cinema Designer global software to accurately design your installation and offer a bespoke service.

Contact our CI Expert reseller network
to help you create your Home Cinema:

www.focal.com/ci-expert

Your bespoke Home Cinema

The Focal Integration products are available on The Cinema Designer global database. This interactive cloud software pulls together the entire design process of an outstanding Home Cinema system. Based on the size of your room, it specifies the exact placement of the loudspeakers, screen, seats and projector. It details requirements in terms of amplification and much more.

SIGNATURE SOUND

In its constant quest for the purest, most immersive and transparent sound, Focal infuses its energy and imagination into the design of loudspeakers to meet every listening and installation need. Traditional floorstanding models, all-in-one models or models integrated into walls and ceilings: all speakers benefit from Focal know-how and exclusive technologies. They offer a high-fidelity sound harmonious between the ranges and, more broadly, the unique Focal sound signature that will magnify the singularity of every living space.

LITTORA 1000

The sound of French Riviera

Experience sensational music-inspired emotion on dry land and at sea: that's the promise made by the Littora 1000 products. Discreetly fitted in the walls and ceilings of yachts and premises located in coastal environments, and spaces such as spas and steam rooms, these products are inspired by the Utopia line of in-wall / in-ceiling products to offer the best outdoor and indoor sound. Equipped with a brand new Fiber IP cone, they benefit from the international IP65 certification, guaranteeing their perfect waterproofing in marine and other wet environments.

LITTORA 200

The Sound of French Riviera

Whether you're on the deck of a yacht, in a spa, a garden, on a terrace, or by the pool - bring Focal sound quality to your outdoor space with high-performance, robust and elegant audio solutions. Versatility and ease of integration characterise the Littora 200 products, which can be installed in any outdoor setting. While the in-wall and in-ceiling speaker drivers blend in seamlessly, the outdoor loudspeakers present unique design and finishes, like OD Stone 8.

100 SERIES

Discreet musicality

The 100 OD6 and 100 OD8 loudspeakers offer Focal quality sound reproduction outdoors. Just like the other models in the 100 Series range, they contain an aluminium inverted dome tweeter and a Polyglass treated bass/midrange speaker driver at the source of their excellent performance. IP66-certified and benefiting from anti-UV treatment, they are resistant to all weathers and are easily mounted either vertically or horizontally.

CI SERIES

The best in integrated audio

The Naim CI Series range of electronics has been designed to be the perfect complement to Focal integrated loudspeakers, as well as hi-fi speakers such as Theva and Aria Evo X. Combining versatility, compactness, upgradability and sound quality, these streaming and amplification solutions cater to all installation preferences with both power and discretion.

APPLICATION FOCAL & NAIM

Available on iOS and Android, the simple yet sophisticated Focal x Naim App lets you easily control and organise your audio experience across all connected Naim products. Play music in every room, adjust the volume, choose your tracks, browse album covers, create playlists, save your favourite radio stations, and much more.

COMMERCIAL SOLUTIONS

100-T SERIES 135

100-T SERIES

Focal sound for large spaces

The 100-T Series is a direct descendant of the 100 Series, but with the addition of a transformer that adjusts the power of the loudspeakers for 70V/100V systems. This makes it possible to cover a very large listening area and minimise amplifier channels. The compact design and low directivity of the speaker drivers make them incredibly discreet and musically uniform, whilst Focal's expertise guarantees your large spaces will have that incredible sound signature.

Safety certification

The 100-T Series in-ceiling coaxial loudspeakers are UL-certified (UL 1480 and UL 2043). Those are recognised american standards for fire and electric shock risks, meaning they are fully compliant with current regulations on fire and electric shock risks.
