

TRIO6

Product sheet

MADE IN
FRANCE

Trio6 is a three-way studio monitor offering transparency, a level of definition, dynamics and soundstage precision that is unrivalled in this price range. Thanks to its dual Focus mode – either one-way or two-way – Trio6 represents three monitors in one by combining the iconic SM9 Focus mode with the new full-range ST6 Focus mode.

Key points

- Beryllium inverted dome tweeter: very low directionality, excellent linearity and dynamics
- Optimised baffle tweeter: excellent dispersion control
- 'W' composite sandwich cone: sound neutrality, no distortion
- Dual Focus Mode: three monitors in one: three-way monitor, two-way monitor (midrange woofer

and tweeter alone) and full-range one-way monitor (midrange woofer alone)

- Large laminar port: no port noises or distortion
- Auto stand-by mode disengageable
- Settings: activatable/deactivatable, LF shelving, HF shelving, LMF @ 160Hz
